

## EWIT 80 L Stainless Steel 2 Faucets Water Cooler (EWC80L40H)

### SPECIFICATIONS

Refrigerant	R134a (Eco-Friendly)
Capacity	80 L
Dimension	636x454x1230 mm
Voltage	230 V
Frequency	50 Hz
Type of Product	Water Cooler
Model No	EWC80L40H
Storage Capacity	80 L
Number of Taps	2 Cold
Material	Stainless Steel
Current	2.5 A
Cooling Capacity	40L 1/hr
Normal Demand	300 Glasses Per Hour
Compressor Type	RECIP
Phase	1 Phase
Water Over Flow Connections	1/2 BSP
Country of Origin	India
Name of Manufacturer/Packer/Importer	EWIT
Warranty	1 Year Comprehensive (Including Compressor)
Body Type	Partial Stainless-Steel Body

### DESCRIPTION

The EWIT (EWC80L40H) Water Cooler is a reliable and efficient hydration solution designed to meet the high-demand needs of offices, schools, commercial spaces, and public areas. With an 80-liter storage capacity, this stainless-steel unit is built for durability and long-lasting performance. The cooler is equipped with two ergonomically designed faucets, allowing easy access for quick and simultaneous water dispensing. Its sleek stainless-steel body not only enhances its aesthetic appeal but also ensures resistance to corrosion, making it ideal for long-term usage in diverse environments. The EWIT (EWC80L40H) features advanced cooling technology that delivers chilled water consistently, even under continuous usage, offering convenience during peak hours. Simple maintenance and easy-to-clean surfaces add to its user-friendly design. Whether for daily hydration or serving large groups, this water cooler stands out as a practical and cost-effective solution that combines functionality, hygiene, and style in one robust appliance.
